RELATED PROVINCIAL POLICING STANDARDS

Section/Subject 4.2.1 – *Body Worn Cameras*

REASON FOR POLICY

8. To regulate when and how members may use BWCs, as well as the management of BWC recordings.

PROCEDURE

Definitions

9. In the following Procedures:

Body worn camera (“BWC”) means a wearable video and audio recording system approved and issued by the DPD and includes the camera unit and supporting software;

Body worn camera recording means any digital audio, video, or still image captured by a BWC, including the file’s associated metadata;

Authorized Equipment and Training

10. Members may only use DPD-issued BWCs.
11. Members may not use a BWC unless they have successfully completed DPD approved BWC operator training.
12. In addition to initial training, members may be required to complete refresher training at periodic intervals to ensure continued effective use of the equipment, proper calibration and performance, and to incorporate changes, updates, or other revisions to operating procedures or equipment.

Mandatory Recording

13. Notwithstanding the circumstances in section 4 under which BWCs may be used, members issued with a BWC are required to activate their BWC as soon as it is safe and practicable to do so, when attending a call or responding to an incident where the member has a reasonable belief that there will be use of force, or where violent or aggressive behaviour is anticipated or displayed.
14. Members are not required to activate their BWC in exigent circumstances, where a delay in taking action would result in danger to human life or safety or where action is necessary to prevent the continuation of an offence which threatens human life or safety.
15. A member who has made a BWC recording in an incident that is documented in a General Occurrence report or cleared as “No Report” in the Mobile Data Terminal, must note the existence of their recording in the report or the concluding notes.

Prohibitions on Recording, Use and Deletion

16. Members may not use their BWC for continuous or indiscriminate recording and are to avoid, to the extent reasonably practicable, recording uninvolved bystanders or benign interactions with the public.
17. Members may not:
 - a. use a BWC to replace officer notes or reports;
 - b. use a BWC in a covert capacity;
 - c. make audio or video recordings during a situation that would reveal confidential police investigative or tactical techniques; and
 - d. disseminate BWC images to any person or entity unless required by their duties and authorized by law;
18. Members may not delete a recording, except in accordance with retention period deletion procedures.
19. A member who discovers having unintentionally made a BWC recording must:
 - a. if not already stopped, then immediately stop recording; and
 - b. advise their supervisor as soon as practicable.

20. A supervisor who has been advised of an unintentional recording must advise the BWC Coordinator, in order that shortest retention period can be applied to the recording.
21. Members may not obscure, willfully interfere with, damage or otherwise limit or prevent a BWC from making an authorized recording.

Decision not to Activate and Authority to Deactivate

22. If a member decides not to record an incident that is required to be recorded, or deactivates a recording BWC prior to the conclusion of an incident, the members must articulate their reasons in the report of the incident, or in their notes if no report was required, by the end of their shift or within 12 hours thereafter.
23. Once activated, a member must not deactivate a BWC until the incident being recorded or purpose for recording has been concluded, unless a member:
 - a. becomes aware that a recording is in violation of a prohibition listed in this Procedure;
 - b. has a reasonable belief that a recording is likely to compromise public safety or inhibit their ability to gather critical information (e.g., a victim or witness is reluctant to cooperate while a BWC is recording);
 - c. has a reasonable belief that the law enforcement objectives served by using a BWC do not outweigh the intrusion on an individual's privacy rights;
 - d. determines that exigent circumstances exist, where those circumstances are such that a delay in taking action would result in danger to human life or safety, or action is necessary to prevent the continuation of an offence which threatens human life or safety; or
 - e. is directed to do so by a supervisor on the basis of the factors set out above
24. If the BWC malfunctions or fails to activate, a member must note that fact in their notebook, stop using that BWC, and contact the BWC Coordinator for repair or camera replacement.

Privacy Considerations

25. Members are required to be mindful that use of a BWC in any circumstance can have significant privacy implications and, when using a BWC, are to weigh the law enforcement objective against possible privacy concerns.

Critical Incidents

26. If a member wearing a BWC is involved in a critical incident, the member's supervisor is required to seize the BWC as evidence.

Note Taking

31.
